

**SIX DIE BY FIRE  
AT MINNEAPOLIS****DISASTROUS CONFLAGRATION  
RAGED THIS MORNING.**

Half a Dozen Firemen Die at Their Posts and Many More are Injured—Loss Will Reach \$100,000—San Francisco Visited by a Blaze That Will Cost \$2,000,000.

Minneapolis, Minn., June 28.—The most disastrous fire which ever visited Minneapolis, caused ruin and death last night. Within an hour after the alarm rang in at 11 o'clock six firemen had perished in trying to save the property of others. The dead are:

JOSEPH HAY, Truck No. 2.  
WALTER RICHARDSON, Hose No. 6.

FRANK RULAIN, Lieutenant of Hose Company No. 6.

JOHN HORN, Truck No. 3.

BERT THOMAS, Hose No. 10, died on the way to the hospital.

UNIDENTIFIED, new member of Engine Company No. 14.

Several others were seriously injured, and it is thought that there may be still more dead who have not yet been extricated from under the ruins of the walls, which fell and crushed them. The seriously injured so far as known are:

Edward Thelen, Lieutenant of Hook and Ladder Company No. 2.

Captain Cadwell, Engine Company No. 6.

The property loss consisted of the entire demolition of the building occupied by McDonald Bros., dealers in crockery, chinaware, glassware, silverware, and gas fixtures. The building was of four stories, brick walls, and wooden interior framework, and was well stocked. The fire originated in the boxes and packing stored in the rear of the building, and was beyond the power of the fire department to control. At a few minutes before midnight the walls fell, one side wall falling in, and the other falling out into the alley, where the firemen were at work, and overwhelming them. The losses will aggregate over \$100,000; insurance unknown.

**SAN FRANCISCO'S \$200,000 LOSS.**

Many Manufacturing Plants and Dwelling Houses Swept Away.

San Francisco, Cal., June 28.—A big fire was got under control at 9:45 o'clock last night after consuming \$2,000,000 worth of property, including many large manufacturing plants and the little homes of scores of families. The fire threatened the entire city, and was replete with sensational and exciting episodes, including a powder explosion which scattered embers far and wide. Mrs. Gilroy was killed by the explosion of a lamp in her house while she was trying to save her household goods from destruction.

Help from Oakland and Alameda assisted in subduing the flames. The fire ate its way to the high brick wall of the deserted Southern Pacific offices at Fourth and Townsend streets, which acted as a barrier over which the flames could not work. The water furnished from the bay by the Oakland engines and Southern Pacific pumps soon had the outer edge of the fire subdued.

The following are some of the buildings destroyed: H. Euler, furniture manufacturer; George W. Phelan, wagon and truck manufacturer; lumber yard, Capitol Box Factory, Fremont Hotel, I. U. Small foundry, Vanderberg & Lewis, stair builders; Commercial Feed Mill, Independent Feed Mill, Irwin F. Niehauf, hardware store; August Steinmetz, Brecker & Hillman, furniture factory; Custom Feed Mills, Carrick, Williams & Wright's box factory and St. Rose Catholic Church.

In addition to the destruction of the mills, factories, foundries and hotels, over fifty dwellings are destroyed. Three hundred families are homeless, though some of them managed to save a portion of their goods.

Thus far no authentic account of loss of life has been given out. Rumors are plentiful, but it is impossible to penetrate the burned district to ascertain whether any bodies are in the ruins or not. One fireman was slightly injured by the fall of a floor, and at first it was reported that he had been killed, but he was got out with no greater damage than a bruised shoulder and sprained back.

The fire started in a box factory on Fifth street, between Bryant and Brannan streets. Next the fire took the Fifth Street Furniture Company's plant. Then it jumped south to the Belmont Hotel, a three-story frame. Next a feed mill was added to the list. A large quantity of grain was burned with it.

Meanwhile, on the north a lumber yard, chemical works, and two large machine shops had gone. On the south the fire crossed Brannan street and swept up the large lumber yard of Scott & Van Arsdale. Soon it was over half through the block between Brannan, Blumens, Fourth, and Fifth streets, and had started out at a lively gait for Townsend street, where it was expected a number of brick warehouses would save the yards and depot of the Southern Pacific's coast division. Many tollers are thrown out of work. At 7 o'clock, with the fire still going, the loss was estimated at \$1,000,000.

At 7:45 p. m. the fire was still far from control. The houses along the lines of the cross streets, surrounding the block bounded by Fourth, Fifth, Bryant and Brannan were all more or less in flames, with the fire working to the northward across Bryant street.

By 8:30 p. m. the entire block bounded by Fourth, Fifth, Blumens and Brannan streets was a mass of ruins. The fire had reached the Overland Transfer Company's brick freight warehouse, and the hardware storehouse of Baker temporarily checked the flames, but the fire was working around to the yards.

The wind was blowing half a gale, and the sparks were being carried for blocks, greatly increasing the spread of the fire. At 9 p. m. the fire was burning as fiercely as ever. Darkness was

ing fallen, the magnitude of the conflagration was beginning to be appreciated by the people. The whole southern sky was ablaze, and many thousands of people were flocking to the scene from all parts of the city. The police were having hard work to keep the careless multitude out of danger and give the firemen room in which to work. Every fireman and engine was at work, and special policemen were pressed into the service.

The people in the fire district were terror-stricken. Most of them are of the poorer class, and were making great efforts to save their small belongings. Express wagons and drays were at a premium, and people were moving a few blocks away from the fire. Probably 100,000 people were gathered at the fire, and the police were powerless to keep them away. The fire was so hot, however, that the unmanageable crowd did not get near enough to be in serious danger.

At 9:30 the fire department officials pronounced the fire practically under control. The wind had shifted to the southwest, driving the flames back over the burned area. The limits of the fire were then confined to the houses immediately about the burned territory. The flames were within 100 yards of the railroad yards and offices, but it was not anticipated that they would be destroyed.

**TAKEN BY AN ARMY.**

Chattanooga Captured by 10,000 Enthusiastic Methodists.

Chattanooga, Tenn., June 28.—Nothing like the Epworth League has struck Chattanooga since Sherman's army swooped down on the town in his famous march towards the sea. The city is in the throes of a mighty religious wave of enthusiasm which has swamped the place. After the opening of the meeting beneath the mammoth tent yesterday, where 10,000 people sang songs of joy and hallelujahs, a grand parade was held. Most prominent in these religious demonstrations were the Ohio, Illinois, Missouri, and Massachusetts delegations, each of those States sending large delegations, particularly Ohio and Illinois. The conference formally opened at 2:30 in the big tent. Eloquent addresses of welcome were delivered by Mayor George W. Ochs, representing the City of Chattanooga, and Rev. J. P. McFerrin, D. D., representing the Methodistism of this city. Fraternal responses were given. Many of the most noted visitors are unhesitatingly in favor of wiping out the lines that separate the Southern and Northern divisions of the Methodist Episcopal Church. This will probably not be discussed in the conference, but it is frequently made the topic of conversation in fraternal gatherings of Northern and Southern delegates.

**Fillbustering Vessel Seized.**

Kingston, Jamaica, June 28.—The New York brig Pearl, seized yesterday at Port Morant, took the place of the steamer Bridgeton as a transport for an expedition fitted out here. It was taken on board a party of Cubans in Bull Bay, when the British cruiser Tartar, on the watch for filibusters, noticed the brig and made for it. The Tartar compelled the Cubans to go ashore, made a superficial search of the vessel, and left it. The Pearl thereupon went to Port Morant and proceeded to discharge its cargo. While there it was seized, and its cargo confiscated. Its loss has discouraged the Cubans.

**Shocking Execution at Columbus.**

Columbus, Ohio, June 28.—Michael McDonough, the Kenton wife murderer, was hanged at 12:08 o'clock yesterday morning in the penitentiary annex. The execution was a sickening one. The rope cut deep into the neck when the body dropped, severing the trachea and jugular vein. The blood spurted over Dr. Jones, one of the physicians, and then flowed under the scaffold, and then flowed in a torrent to the stone floor of the room. McDonough's crime was the stabbing of his wife in Kenton, Ohio.

**ANOTHER VICTORY  
FOR THE CUBANS****SPANISH AGAIN DEFEATED BY  
THE INSURGENTS.**

However, There Were 1,500 Rebels Pitted Against Seventy of the Auxiliaries of the Government, So They Ought to Have Handled Them—Campos Sent For.

Havana, June 28.—Details have reached here of a desperate fight between 1,500 of the insurgent force under Maximo Gomez, in the Province of Puerto Principe, and seventy of the auxiliary troops of the Spanish government, known as guerrillas, under Captain Aguero. The engagement took place on the day of the insurgent raid upon San Geronimo. The seventy guerrillas were surprised by the vanguard of Gomez's forces, commanded by Mirabel, and there was great slaughter on both sides, the fighting being mainly with machetes. For an hour the fight lasted and nothing could be heard but the rattle of musketry, the shouts of the combatants, and the clashing of machetes. It is believed that few if any of the guerrillas escaped being killed or wounded. The insurgents engaged with the guerrillas are believed to be the men who recently burned the towns of Elmutto and San Geronimo after capturing the forts and garrisons of those places, and it is said the news of this fresh disaster has caused a very uneasy feeling in government circles. That there is real cause for alarm may be gathered from the fact that it is reported in well-informed official circles here that Captain General Martinez Campos has cabled to the Spanish government asking for the prompt dispatch of large re-enforcements of troops from Spain.

**WILL SEND THE TROOPS.**

Reinforcements Asked for by Campos Will Be Given.

Madrid, June 28.—The Premier, Senor Canovas del Castillo, announced yesterday that the ministry had received a cable dispatch from Captain General Martinez Campos notifying the government that 14,000 additional troops will be required to enable him to undertake an offensive campaign in Cuba after the rainy season is over. The statement has caused some excitement, although the government has been making preparations for some time past to send additional troops to Cuba.

**TROUBLE IN DENVER, COLO.**

Indignant Citizens Threaten Councilmen with a Rope.

Denver, Colo., June 28.—The fight for an independent water service or a reduction of the prices exacted for the present service, which was made an issue of last spring's election, culminated yesterday in the passage of the ordinance submitted by an Alderman, charged to be in the pay of the Union Water Company.

For eight hours the Aldermen sat in the Council Chamber in front of an indignant multitude of citizens, who threatened them with lynching if they carried out their plan contemplated for the passage of the ordinance. A force of fifty policemen in uniform and a score of city detectives in citizen's clothes were in the room, and they were expected to interpose between the mob and the Aldermen if it came to the worst. A rope was shown by the crowd, and its use was called for during the afternoon session when Alderman Emery changed his vote from the side of the taxpayers to that of the water company. The trouble was finally settled, and the crowd dispersed, but with ominous threats, and the situation is decidedly grave.

**SCOTT'S SLAYERS NOT FOUND.**

Men Accused of the Murder Are Acquitted.

Butte, Neb., June 28.—The three men accused of the murder of Barrett Scott, the defaulting Treasurer of Holt County, were acquitted yesterday. George D. Mullihan, Alf R. Harris, and Moses T. Elliott, the men in question, were immediately discharged from custody. Barrett Scott, as Treasurer of Holt County, embezzled \$100,000. The authorities called on him to show his cash. He went to Omaha and borrowed \$50,000 in gold for two days, paying \$1,000 for the use of it. The committee was satisfied, but a few days later became suspicious and demanded a recount. Scott fled to Mexico, was brought back, tried, convicted and sentenced to five years in the penitentiary. Getting bail, he was released, and on December 31 last he was assassinated on the prairie near O'Neill. A month later his body was found in the Niobrara River.

**Police Threatened by a Mob.**

La Crosse, Wis., June 28.—A desperate mob gathered in the northern part of the city last night to denounce the police for killing a man. The police are puzzled. A committee of citizens was appointed and the last thing last night notified the Chief of Police that he must produce that man, alive or dead, to-day.

**ILLINOIS LEGISLATURE.**

Bitter Party Fight Will Occur Over the Extra Session.

Springfield, Ill., June 28.—The Republicans of the Senate successfully defeated the efforts of the Democratic Senators to introduce bills yesterday and obtained an adjournment after a session lasting less than half an hour. The Legislature will take a recess from to-day until July 9. The Democrats will oppose the proposition, but the Republicans are a unit and will carry it through. The members are getting ready to go home and only want to put through a joint resolution for an adjournment until July 9. This matter will come up in both branches of the General Assembly to-day. From present indications the resolution will be adopted by a party vote. There does not seem to be any chance for the Democrats to beat it.

The Republicans of the two Houses held a joint caucus yesterday. Senator Dunlap presented the report of the committee appointed to investigate the question of the tax levy. It said: "Your committee find that the appropriations made by the Thirty-ninth General Assembly in general session amount in round numbers to \$3,000,000, exclusive of the appropriations for school purposes, for the next two fiscal years, and of that amount many sums were appropriated for new buildings, institutions, and improvements, and are in addition to the regular amounts for the ordinary expenses of the State government, many of which should have been made by the last Democratic General Assembly." The committee says it believes there is no reason for an increase in the tax levy, and recommends that no further action be taken upon that subject.

A caucus of the Democratic members of the House was held in the morning. After some discussion a committee of five was appointed to prepare an address to be spread abroad among the people of the State to give the Democratic version of the necessity for a new tax levy.

**HUNTING DESPERADOES.**

Posses of Washington Stockmen Looking for the Daring Cattle Rustlers.

Sprague, Wash., June 28.—Excitement over the killing of Deputy Sheriff Conlee by Desperado Alfred Simes grows more intense. Half a dozen posses are now out hunting for the murderer. Stockmen are so wrought up over the affair that there is liable to be a bloody battle should they come across any of the gang who make Rocky Ford their rendezvous. At a mass meeting of citizens \$500 reward was guaranteed for the capture of Simes. It is expected the county commissioners declare they will band together to exterminate the entire gang of cattle rustlers.

Ritzville, Wash., June 27.—The saddle and bridle belonging to Conlee's horse was found covered with sagebrush a mile from the scene of the murder. At Starbuck Sheriff Baldwin arrested a red-headed woman and two pals for stealing a pair of horses from Rocky Ford on May 29. They are supposed to be a part of the Rock Creek gang.

**PLANNED THE KIDNAPING.**

Ex-Convict Said to Have Been Back of the Buffalo Mystery.

Buffalo, N. Y., June 28.—It has developed that the leader in the plot to secure ransom money from the family of Octavus C. Cottle, who was kidnaped, was John C. Emery, once a prominent citizen of Buffalo. Some years ago Emery, who was living in Cincinnati, was arrested for violation of the postal laws. He was tried, convicted and sentenced to a long term in the penitentiary, but escaped and made his way to Canada. After a time he opened negotiations with Mr. Cottle, who was an old friend of his, for securing a pardon from the Governor of Ohio.

Mr. Cottle promised to do what he could for him, and Emery, it is alleged, paid over \$17,000. Cottle did not get him a pardon, and Emery demanded the return of the money, which, it is said, was refused. It appears that Emery then obtained a confederate and planned the kidnaping. It is also believed, \$5,000 was actually paid to Emery.

FULTON FOLK TALK OF SCHOOL.

Matter Will Up On July 1. Latter Day Saint, Hold Meetings.

FULTON, June 28.—Monday evening July 1 there will be a school meeting in the school house to consider the business for the coming year and if possible to reach the question of having a High school here. This has been before the public for the last six months and now as the time draws near to settle the question it is hoped that all the voters will come. Friends of the school argue that we must keep as near the upward move as possible if we are in a small town and to do this is to educate our children. All should feel, even though they had none in their own home that can be directly blessed, that there are those around them that need to be protected and helped. Let us not, they say, be a stumbling block in our brother's way even if it does cost us something. The Latter Day Saints are holding tent meetings here each evening to a fair attendance. Our hand is making good headway with Frank Burdick as leader. They are able to play now for picnics. There has been some talk of their going to Cooksville on the Fourth. Mrs. Agnes Sutherland and children who have been up from Janesville visiting at D. F. Sayer's, the last two weeks, have gone to Edgerton to visit Dr. McManus and family. Miss Annie Towns and Miss Louise Raymond have returned from Fargo, Dakota, where they have been attending school the past year. Mrs. Louis Gilbertson and Mrs. Johnson from Janesville, were pleasant callers in town last Friday. Next Sunday will be children's day. A fine program is being prepared and all are invited to come. B. FAY MILLS HEADS AN ALBANY CHURCH

EVANGELIST MILLS TRYING A SEASON OF REGULAR WORK.

Has a Congregation of 800 and Is Teaching His Little Boys What It Is To Have a Father—The Change Is Not Permanent—Would Like To Come Here.

Rev. B. Fay Mills—no longer evangelist—now preacher in regular standing—would like to pay Janesville another visit. He never thought his Janesville meeting a success. A second attempt, he feels would bear better fruit. When told in Chicago that Bower City folk credited him with bringing substantial benefits—benefits that were not transitory but had endured and grown more manifest until the present day—he was much pleased. "There is much of the New England reserve about Janesville congregations," said he to a Gazette man, "but with the reserve there is another sterling quality of our eastern stock—unchanging fidelity. A seed planted in Janesville soil brings forth a shoot that is not cut down by the first frost, but grows into a sturdy tree." "You are no longer in evangelistic work, Mr. Mills?" suggested the reporter.

"No, I left the field eight months ago. I am now pastor of a Congregational church in Albany, New York."

Is Not Located Permanently.

"Will the change in your work be permanent?"

"By no means. You see I had been traveling about, without a home, for eight years and I felt I was entitled to settle down for a year and get acquainted with my family. My two boys are just getting to the age where they need a father's guidance as well as a mother's and it was in some measure for their sake that I made the change. Then an evangelist needs to settle down among the people once in awhile to study human nature and see how his converts turn out. My wife tells me that I see all converts at the best time—when they are at fever heat—and I suppose I do. As a regular pastor I have had a chance to follow up conversions with personal work that I hope has been more or less effective. There have been 230 conversions in my church since I went to Albany and we now have 800 members. Of course I attempt very little pastoral work—much of that was left to my assistants by the terms of my agreement when I took the place.

His Home In the Country.

"I am living quite a ways out of the city now, for I found that as long as I stayed in Albany I should do very little work. There were too many calls and too many temptations to take tea and spend pleasant evenings with friends—a solace that I had very little chance of while traveling. My time of quiet is nearly up now, though, and it will not be long before I shall be an evangelist again. As I said before, I should like to see Janesville again, but don't know that it will ever be possible. For a long time to come I shall be busy in the east."

Mr. Mills is in vigorous health, and looks much stronger than when he was here. He is to spend the next three weeks in Grinnell, Iowa, where he delivers a series of lectures before the summer school.

EAT ALL THE PEACHES YOU WANT

Grocers Get the Cheering News That They Will Be Cheap.

"Peaches? Yes, mum, they'll be big and juicy and cheap this year. Save you two bushels for canning? Certainly. You'll get them cheaper this year than ever." And the west side grocer smiled in a way suggestive of peach short cake three times a day.

"It will be a big year for peaches without any mistake," he said to a reporter a moment later. "Michigan railway men say more cars will be needed to handle the crop than ever before. Farmers are actually forced to thin out the peaches. To save the trees from injury from overloading. The railroads have about 190 cars especially built for the fruit traffic and during the season these cars will make round trips to Chicago every twenty-four hours. My market report from Chicago today, however, says that more cars are being borrowed on every hand. Chicago is our great market of course, but we are likely to get considerable fruit this year from Milwaukee. Peaches come to Milwaukee by boat to Chicago a large quantity is shipped by fast freight."

In regard to other Michigan fruits, the apple prospect is dubious, plums short, and pears fairly up to the average. As to home-grown fruits strawberries are about all picked, the yield being about half the usual amount. Raspberries and blackberries will be plentiful. Grapes are set for quite a good yield.

DOCTOR BARS OUT FUNNY BOOKS.

Rheumatic Patient Recovers While Looking At "Zim's" Funny Cartoons.

A Janesville doctor who is a great admirer of humorous magazines decided that it would be a fine thing to keep a file of them on his office tables. He got a supply of Judge, Puck and Life and for a time all went well. A short time ago a young man who had been troubled with rheumatism, called one day for his regular weekly treatment. The doctor was busy at the time, so the young man killed time in looking over the magazines. Finally he came to a "Wild West Supplement" which so pleased him that he walked out smiling and laughing to himself and the doctor says he hasn't been around since.

NEW \$10,000 FACTORY FOR THE BOWER CITY

JANESVILLE CLOTHING CO HAS PLANS READY.

Location Not Definitely Determined But Negotiations are Pending For the Vacant Lot Next to The Lewis Knitting Co's. Building on Main Street.

A factory which will be a credit to this city will be built in the near future by the Janesville Clothing Company. For some time past J. A. and H. J. Cunningham, proprietors of the Janesville Clothing Company, have talked of building. Their present quarters are far too small, and the place is not adapted to the manufacture of their line of goods.

The plans for the new factory, which have just been completed by Janesville's well known architect, F. H. Kemp, call for a three story building and basement with all modern improvements. The second floor is to be used for a workroom and there is little doubt that electricity will be the power. The first floor will contain the offices and shipping room.

The dimensions of the building are 34 by 125 feet and the cost will be in the neighborhood of \$10,000. No definite location has been secured as yet but negotiations are now pending for the purchase of the vacant lot at 101 South Main street, next to the Lewis Knitting Works. Assurance is given that the city will soon have a clothing factory second to none in the state.

WANT FURNITURE FOR THE Y.M.C.A

Ladies' Auxiliary Plan to Furnish the New Building.

The Woman's Auxiliary of the Y. M. C. A. are planning for the furnishing of the new building which will be ready for occupancy in a few weeks. All who contemplate giving articles of furniture suitable for use in these rooms will please communicate with Miss Ella De Baun, secretary.

Monsoon Tea.

Indian and cyclone teas are now becoming very fashionable in this country, in England they drink nothing else. This popularity may attribute to the following facts.

First. They are exceedingly delicate and very healthful.

Second—The manufacture is scrupulously clean.

Third. They are absolutely free from adulteration of any kind.

A few years ago these teas were unknown. Last year over one hundred and ninety million pounds were sold in London alone.

Mrs. M. Abby will serve it with the Sprague Warner pure food exhibit for a few days at C. N. Vankirk's tea store.

Monsoon tea is only sold in lead packages.

MEN GROPE A WOMAN SEES THE LIGHT.

She Best Understands a Woman's Ills.

[SPECIAL TO OUR LADY READERS.]

How gladly would men fly to woman's aid, did they but understand a woman's feelings, trials, sensibilities, and peculiar organic disturbances! Those things are known only to women, and the aid a man would give is not at his command. This is why so many women suffer.

Twenty years ago Lydia E. Pinkham gave to the women of the world the result of her years of study in the form of her Vegetable Compound, a universal remedy for all female complaints.

She well deserves the title, "Saviour of her Sex." She saw the light of reason, and gave it to her suffering sisters.

All female diseases put forth their symptoms, such as nervousness, lassitude, paleness, dizziness, faintness, leucorrhoea, faltering steps, sleeplessness, bearing-down pains, backache, and consequent melancholy and the blues.

Lydia E. Pinkham's Vegetable Compound has for twenty years saved women from all this. Hear this woman speak:—

"Five years ago at childbirth I did not have proper attention. I became very weak; could lift nothing without bleeding from the womb, which was ulcerated badly. I was examined by a physician, and treated for a time, but was compelled to leave the city before I received benefit from the treatment. I decided then to give your medicine a trial. I improved rapidly on the first bottle of Compound, and now feel like a new woman. Ulcers have ceased to form on the womb as they did. I advise all women in any way afflicted with female troubles to take your remedies, and trust that my testimonial will be seen by friends who knew me when I was so sick, and that they may know I am now well, and that I owe it all to your Vegetable Compound."

## DR. DEPEW'S SOUND LOGIC

Mr. Depew has this cheering report, respecting his observation in Ohio, Nebraska, Kentucky and Tennessee. "Everywhere I found prospects of great crops. This, coupled with restored confidence and a sound money system, will give this country for the next two years an era of unknown prosperity. It will redound to the credit of the republican party, and we will go to the polls next year and elect our candidate by an enormous majority." The gifted doctor's premises are all right and his conclusions are the sort that will be ratified by figures on every bulletin board in the country the day after election.

What fun William S. Gilbert could have with the free silverites! From their theories he could evolve an opera that for topsy-turveness would leave "The Mikado" far behind. He might devote one entire act, for example to Senator Stewart's idea that the demonization of silver has had an alarming effect on matrimony and that the census of 1900 will show a terrible falling off in population. He couldn't do better, for when has the mind of man ever conceived anything more grotesque?

If free silver is all they need for a panacea our democratic friends can step across the line to Mexico where free silver has been the rule for two hundred years, where laboring men receive fifty cents a day in silver coinage, and where the purchasing power of wages is weakened by the inflated prices of the necessities of living.

Within the past thirty days over 250,000 workmen have received increases in wages. As republican influence becomes more and more potent in national affairs, so the story of prosperity will grow until it will presently be too long to be told in comprehensive figures.

Now that Kentucky has passed the crisis of free silver, the state is good fighting ground for the republican party.

Governor Altgeld of Illinois, is likely to have a good deal of fun with his extra session.

Prosperity is doing as much as anything else to cure the free silver craze.

## A SMALL BOY'S BODY WAS FAIRLY COOKED

GEORGE QUADE AGED 7. PAINFULLY BURNED.

While Shooting Firecrackers at Five O'clock Yesterday Afternoon His Clothes Became Ignited—Father Blistered in Helping the Son—Lad Will Live The Doctors Say.

With tongues of flame curling about his body and blistering his flesh, little George Quade shrieked in agony and rolled in the dust near the parental home on South Academy street at 5 o'clock last evening.

Now he lies groaning on a bed of pain with great blisters standing out on his little body, while his father also nurses a painfully blistered arm. The lad will live, but he will not be out of danger for some time. Word came from his bedside at 3 o'clock this afternoon that he was not so well and that serious results were feared, but the family are hoping for the best.

Young Quade is but seven years old and lives with his parents, Mr. and Mrs. C. Quade on South Academy street, his father being the proprietor of a small shoe repairing shop. Last night the lad was shooting fire crackers with a number of his playmates and accidentally dropped a fire cracker inside his shirt waist. In an instant a tongue of flame ran up his arm and he screamed with pain. His father, who was at work in his shop heard the call.

Father Was Burned Too.

Hastening to the door he saw the lad wrapped in flames, the blazes having enveloped his chest and back and nearly destroyed his clothing. The boy's calls for help were pitiful and the father ran to the him. Forgetting in his excitement, his own danger Mr. Quade attempted to put out the fire with his bare hands and was painfully burned himself. He succeeded in extinguishing the blazing edges of the boy's clothes, and carried the lad to the house where the burns were smeared with a combination of kerosene oil and ink, which seemed to ease the pain. A messenger was at once dispatched to Dr. K. Mehnart's office, over Rich & Davis' drug store. When the doctor arrived he found that young Quade had been very seriously burned but says that he thinks that he will recover with proper care. His whole arm, chest and a portion of his back were blistered, and cooked, and the affliction is a sore one, especially for so small a lad.

"I have seen less extensive burns cause death," said the doctor after finishing the dressing of the lad's injuries, "but I do not anticipate any real serious results in this case, although the burns will probably leave unsightly scars."

## SALOONS TO CLOSE ON NEXT TUESDAY

THE TOWN IS LIABLE TO BE DRY FOR A WHILE.

Attorney Hyzer Advises the Liquor Dealers to Offer \$200, And On The Council's Refusal to Accept It To Lock Up The Doors, To Which All But Eight Agree.

Thirty-eight Janesville saloon keepers assembled in the law office of Winans & Hyzer last evening and resolved not to put up more than \$200 for license on July 1.

"If the council refuses to grant us a license for two hundred dollars on next Monday evening" said one of them, "we will all close up on Tuesday morning, and people can go 'dry' for a time." The saloonists were called together last evening to consult with their attorneys, who are contesting the validity of the special election which resulted in placing the license fee at \$500, when Attorney Hyzer counseled taking the above course.

Mr. Hyzer, who is associated with J. L. Mahoney in the case on the part of the saloon men, is very sanguine that the courts will set aside the result of the election, and his belief being so strong on this point, he told the saloon men last evening to apply for a license Monday night, in the usual way, paying \$200 and at the same time offering a bond to pay the additional \$300 in case the courts declared the special election valid and by unanimous vote the meeting agreed to follow this advice.

Could Not Get Anything Back. At first some of the saloon men favored depositing the full amount under protest, but they were informed that if they did so, and the case was decided in their favor, the council would be under no legal obligations to refund any portion of the money so paid, the Beloit case being cited as authority. A final decision in the case is not expected before September, as it is certain now, that no matter how it is decided by Judge Bennett, it will be carried up to the supreme court. It was also developed last night, that even with a \$500 license fee, only twelve of those engaged in the trade at present would drop out of the business. A prominent west side saloon man this morning, said,

"We all intend to lay down our \$200 next Monday, with a bond conditioned, that in case the law is declared valid we will pay the additional \$300. We don't expect the council will accept this, even pending the legal proceedings, but they will decline to grant licenses. In that case we all agreed to close up business, and let the people go dry. Perhaps there may be a few blind pigs around pending the law suit, but that will be risky business."

Eight of Them Pay \$500. Notwithstanding the enthusiasm which prevailed at the meeting a change took place with some of the saloon men today, and the compact was broken by eight saloonists, who walked into the city treasurer's office and depositing \$500 each.

"We thought it best not to antagonize the council in this matter, one of them said, "Undoubtedly many of the saloon men will stand by the action of last night, but that action is likely to create a feeling in the council against us, and may work to our disadvantage."

Those who have deposited the \$500 and made their applications for license are: Adam Holt, F. C. Stillson, Isaac F. Connors, William Baer, McKeigue & Worthington, J. H. Donahue, Herman Kath and L. Leffingwell.

When the telephone crew began work south of town yesterday they didn't know what the future had in store for them. The holes have to be from four and half to five feet deep and when the twenty-five men stopped work yesterday they had only reached the State School for the Blind. Manager Willits says it takes forty poles to the mile and a crew of twenty-five men, will easily set two miles of poles in one day.

## A PICK-POCKET SENT TO A WAUPUN CELL

WILLIAM DONNELLY GETS A 15-MONTHS' SENTENCE.

He Pleaded Guilty To the Charge Of Robbing C. F. Meyers at Beloit Some Time Ago, and Judge Phelps At Once Pronounced the Penalty—Officer Houghton's First Case.

William Donnelly pleaded guilty this morning to the charge of stealing a silver watch valued at \$10.50, and a gold chain valued at \$2, from C. F. Meyers of Beloit, whereupon Judge Phelps sent him to Waupun for fifteen months. The crime was committed on the evening of June 7, in the Line City. A large crowd of people had gathered round a patent medicine street fakir on the street. Donnelly was in the crowd, when, with folded arms he edged up to Meyers and cleverly took his watch, but while endeavoring to loosen the chain, he was detected. He dropped the watch and ran, but was captured and afterwards held for trial. This morning when he was brought up to plead to the information filed by District Attorney Jackson, he pleaded guilty, and Judge Phelps pronounced the sentence. Donnelly will go to Waupun this afternoon, under escort of Sheriff Appleby. It is thought that he was one of the pickpockets attracted to Madison by the Woodmen's picnic, and stopped off at Beloit on the return trip.

Officer Walter Houghton made his first arrest last night and the young man that he took in hand can not doubt, testify as to his being a first class policeman. Complaint was made to the new officer that a well known young man was drunk, and making a show of himself in the alley at the rear of Bassett & Echlin's store on Milwaukee street. The offender against the peace and good manners was soon caught and after a few applications of Officer Houghton's new hickory "uniform" the culprit promised to reform and was taken home with the promise that his next illegal act would land him in jail.

Chief Achason, Officer Hogan and Constable Wallace Cochran made a raid on the "Bat Men's Touring Association" this afternoon and arrested the whole organization. It was composed of six corpulent and lazy tramps who came to town on a freight train this morning. A telephone message was sent to the officers and they gathered in the heavy weight hoboes, in the act of discussing a pall of beer.

Fred Lyons was arrested this morning on the charge of conduct unbecoming a gentleman, but as he was carrying a heavy load of liquor, he was given in charge of Turnkey North at the Appleby house, to sober up, when he will be arraigned in court.

'ALL SOULS' The Peoples Church

"Provide the right conditions for mental growth, but let the child do the growing." If we dictate too absolutely we enslave instead of develop the child's thought.

This is true in the church as well as in the school. It is a true of religious culture as it is of mental culture.

There is too much absolute dictation in religion. Too much encephaloping where there ought to be developing.

It is a mistake to allow yourself to become "confirmed" too everlastingly in anything.

Do not be in a hurry to "conform" to this or to that creed or custom.

Conformity comes dangerously near to deformity.

## AFRICA NEEDS RAILWAYS.

Stanley Says So and He Also Talks About French Doings.

The Paris Figaro publishes an account of an interview which its London correspondent has had with H. M. Stanley on the subject of African colonization. Mr. Stanley is represented to have said in the course of the interview: "The future of Africa belongs to those who shall the soonest and the quickest act on the simple truth that what is wanted is railways to bring travelers back in three days from the western Soudan to Algeria. The construction of such railways would not cost more than \$0.00 francs per kilometer, and with some Tirailleurs as an advance guard the Tuaregs would leave the working parties alone. When you have 1,200 miles of navigable waterway on the Niger—that is to say, almost the entire commerce of that great river—then you will have ivory, copal, skins, gold, India rubber, etc. There is, indeed, as great a wealth of resources in Africa as in France, as has been proved by the results obtained since 1825 by the English in the south, where gold, diamonds and the rest today bring England in 125,000,000 francs a year. "Why," Mr. Stanley is reported to have continued, "has France still done nothing with the Niger, although you have many French explorers in its vicinity? The French are very good explorers, and thanks to them, you know perfectly the topography of the country. But how many years will it be before you know what there is underneath? Surely there is gold, surely there is coal, perhaps diamonds, but they have to be sought for. Today the French may despise the Soudan, but the Soudan is for them the means of arriving at the Niger Basin, which is a marvelous garden provided with a very luxuriant vegetation and filled with charming spots watered by countless tributaries, which will pour into the great river which is yours the immense wealth of their banks."

In conclusion Mr. Stanley is reported to have said: "The French are still engaged in the policy of annexation. Explorers are constantly on the move, but the time has now come to set to work. You have established a military station at Timbuctoo, but that is an isolated post connected with no point of the French colony. The river is waiting for the steamboat and the country for its railway. Without them all those conquests of yours will remain barren."

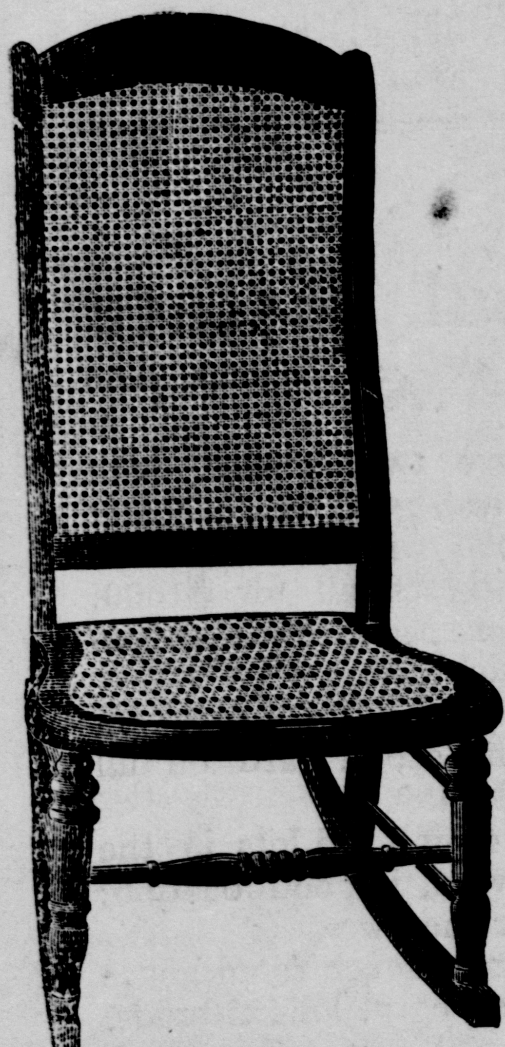

## ANOTHER INNOVATION.

Banking Introduced in Department Stores of New York.

A banking department is the latest novelty in a large uptown dry goods store, says New York Journal. Its object is to be a convenience for the patrons of the establishment and residents of the neighborhood rather than to make money for the firm. It is to all purposes a bank, although not being chartered it cannot be dignified with this name. Deposits are made and checks drawn in just the same way as they are at any bank, so that a customer visiting the store can transact all her business under one roof. She can furnish her home, provision it, purchase her clothes and those for the rest of her family, have her photograph taken, enjoy a delicious meal, buy flowers for her lawn, take a nap and pay for all by a check drawn on the proprietors of the store. The convenience of this banking department does not end here, for when the bars and shutters have been put up on regular banks money is still passing in and out of the teller's window. Three o'clock goes by without notice, and the fatigued shopper suddenly realizes she has forgotten to have a check cashed. This she can have done as late as 5 o'clock on other days and 9 p. m. on Saturdays. Neighboring tradespeople also avail themselves of this convenience. Letters of credit to any part of the world are issued by this shopper's bank, and foreign money is bought and sold there, at the current rate of exchange. Passage on any of the transatlantic steamers may also be purchased there, and cabins selected in the same place where steamer chairs and rugs are bought.

We have a full stock of Cunninghamham clothing in our Midway store. That speaks volumes. Lowell, the Hustler.

Tickets will also be placed on sale at all coupon offices west of Chicago.

Whatever point you start from be sure your ticket reads via B. & O. In addition to the country through which the B. & O. runs, the B. & O. is the only line from Chicago to Baltimore running via Washington, a double daily service of fast express trains run between the west and east.

## BETTER THAN A GOLD MINE.

Last month I cleared, after paying all expenses, \$235.38; the month before \$186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co. Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.

## Christian Endeavor Excursion to Boston.

For the above event the Chicago, Milwaukee & St. Paul Railway will sell excursion tickets at half fare, over any eastern line, on July 5 and 8. Tickets limited to 30 days. Going one route and returning over another route adds slightly to the cost of tickets and varies according to routes chosen. Information as to this matter may be obtained at the ticket office of the C. M. & St. P. Ry. Our 9:55 a. m. train makes connection at Chicago with all eastern trains. Reservations in sleepers secured in advance.

There is one medicine that will cure immediately. We refer to Dr. Witt's Colic and Cholera Cure for all summer complaints. No delay, no disappointment, no failure. C. D. Stevens.

## National Encampment at Denver, Colorado.

Excursion tickets at half-fare, plus \$2, for the round trip, will be sold to Denver, Colorado Springs, Manitou or Pueblo, Colorado, on July 4, 5 and 6, good for return up to and including July 15, and can, if desired, be extended to return, up to September 1, by depositing ticket with joint agent at either of above points. Apply at ticket office of the Chicago, Milwaukee & St. Paul Railway for tickets over any route, and necessary information.

Persons who are subject to diarrhea will find a speedy cure in De Witt's Colic and Cholera Cure. Use no other. It is the best that can be made or that money can procure. It leaves the system in natural condition after its use. We sell it. C. D. Stevens.

## Practice Makes Perfect.

"Do you know of any mitigating circumstances in your case?" said a Texas justice to Sam Johnson, accused of stealing. "Lemme off dis time." "Is it your first offense?" "First offense, sah." "How did you manage to get the chickens so cleverly without disturbing the dog that was in the yard?" "Dat's come from practice, boss," said Sam, who felt flattered by the remarks of the court.—Texas Sitings.

If the Baby is Outing Teeth, Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

The Point of the Pistol Is an effectual persuader, and there are many persons so unimpaired of the symptoms of oncoming disease that it would almost take that deadly argument to induce them to adopt precautionary measures. The best of these is a recourse to that fine botanic restorer, Hostetter's Stomach Bitters. It vanquishes malaria, rheumatism, kidney and bladder trouble, failing digestion, biliousness, and irregularity of the bowels, and completely fortifies the system against their further inroads. Its ingredients are drawn from nature's storehouse, consequently it is free from the objections attaching to many absolutely or semi-mineral remedies. For the delicate, infirm, convalescent and elderly it is peculiarly beneficial. It well merits continuous and systematic use. Take it at bed time to induce sleep, and between meals to stimulate appetite and digestion. The medical fraternity concur in endorsing it.

## A WOMAN'S BRAVE DEED.

Saved a Little One From a Terrible Death.

"Hi-hi!" shouted again and again a group of excited people who had a few minutes before been quietly sauntering along the streets of San Diego, in California. The cause of the violent uproar soon became painfully clear. A herd of wild cattle was being driven through the town. Now, as is well known, the temper of these animals is uncertain, and on the afternoon of which we write the horrified bystanders had proof of this fact. A little child was playing in the street not far from the spot where the cattle were passing, when one of the bulls—a huge creature, with large horns—made a sudden rush at the little one. To add to the terror of the scene, the drover was tipsy, and in trying to turn the furious animal he fell off his horse. Then arose those warning yells from the spectators, as they beheld the terrible fate from which, as it seemed, nothing could save the child.

At this very moment a lady happened to come into the street, and the noise of the tumult at once attracted her attention. She saw the child's appalling danger at a glance, and immediately sprang into the empty saddle. She succeeded in catching up with the wild bull, and threw her shawl over its head just as it was about to charge the child. She then, without leaving the saddle, lifted the child to her lap and took it away to a place of safety. This brilliant act of bravery awoke round after round of hearty applause from everyone who witnessed it; and as one reads of the splendid act one can almost hear the cheering yet.

## A LOSS OF \$80,000,000!!!

Labor saving inventions or discoveries have often been violently opposed on the ground that they take workmen's bread out of their mouths. Although experience has shown the fallacy of that theory the feeling, or fear, was natural.

But it is not so much the lack of work as the inability to work that causes poverty and suffering. In England and Wales every workingman averages ten days of sickness every year, with a total loss of wages for all about \$80,000,000 per year. In all countries the prevailing disease is indigestion and dyspepsia and its consequences—such as rheumatism and other ailments resulting from impure blood; a result of dyspepsia.

No thorough, rapid and trustworthy cure for this universal and obstinate malady existed until the Mt. Lebanon (N. Y.) Community of Shakers placed upon the market their now famous remedy called the Shaker Digestive Cordial. It is prepared from roots and herbs cultivated solely by them. Nothing more certain, safe and palatable can be imagined. It expels the impurities from the body by means of the bowels, kidneys and skin, and imparts vigor and tone to the stomach—upon whose proper action all our strength, activity and endurance depends. For many years the Shakers have given earnest attention to this subject and their final success is thankfully admitted by the multitudes who have been cured by the cordial after all other means have failed. Their high reputation for skill as herbalists, for honesty and religious sincerity guarantees whatever they recommend.

No invention can take your work from you if you are able to work. Health and strength are the vital considerations in every business.

In order to find whether the Shaker Digestive Cordial is adapted to your case try a ten-cent bottle. Its effect is immediate. For sale by nearly all druggists.
